TRIA Hand Therapy Conference: Current Concepts in Hand Therapy

COURSE DESCRIPTION

The TRIA Hand Therapy Conference will include presentations on current and best practice approaches to hand therapy and surgery. Participants can discuss topics with expert faculty on diagnosis, treatment and prevention of hand and upper extremity injuries and conditions.

- Keynote by James House, MD
- Hands-on lab experiences in orthosis fabrication and wrist evaluation
- Upper limb anatomy lab
- Physician and therapist expert speakers discuss upper extremity conditions and treatment, radiology, pain, and integrative health techniques

TARGET AUDIENCE

This course is for hand therapists, occupational therapists, and physical therapists with intermediate to advanced experience in treating hand and upper extremity conditions.

ACCREDITATION

This activity has been planned and implemented for occupational and physical therapists for up to 11.5 hours of continuing education. The participant is responsible for determining whether this activity meets the requirements for acceptable continuing education.

Registration Open – April 15, 2015

CONFERENCE FEE – \$395 (*\$475 after 8/1/15*)

Your registration fee includes the course syllabus, all lab fees, refreshment breaks, breakfast and lunch on Friday, and breakfast on Saturday. The social reception on Friday evening is also included with pre-registration.
