This is a hospital-based position that supports Outpatients and Acute In-Patient Care Post-Op Splinting by developing, planning, organizing, and implementing a comprehensive Hand Therapy Program. The position offers a wide scope of certified hand therapy practice. Utilizing clinical best practice and a goal-directed, evidence-based approach, the Occupational Therapist is responsible for assessing and developing comprehensive treatment plans for referred clients including Worker's Compensation Board (WCB) clients with hand and upper extremity dysfunction using appropriate therapeutic interventions.

The culture in our team is we are a family. Whatever is happening at home or at work we are here for one another. We have a great, supportive team that provides ongoing mentorship and comradery. We enjoy our work, work hard to get things done and have fun while doing so!

Interior Health provides the opportunity to not only do the best job that you can possibly do while you're at work but it gives you the opportunity to look after yourself and to take care of yourself outside of work. Come and try it out. Enjoy what you see! Apply today!

Requirements

- Graduation from an approved program of Occupational Therapy or Physical Therapy.
- Current registration with the College of Occupational Therapists of British Columbia or College of Physical Therapists of BC, whichever is applicable.
- Current Hand Therapy Certification with the Hand Therapy Certification Commission.

- Minimum of two (2) years' recent, related experience (which includes at least one (1) years' experience in splinting/hand therapy) or an equivalent combination of education, training, and experience.
